

Revolutionary War Patriots Buried In Greene County, Illinois

By: Alan Y. Harrison

Forward

The Sons of the American Revolution has certain goals as their purpose. We promote the history of our nation, particularly during the American Revolution. We promote patriotism. We encourage the memory of and the sacrifices made by the Patriots to give us this great nation which we enjoy.

All three of these goals are accomplished by conducting Revolutionary War Patriot ceremonies. What is a Patriot? Soldiers who fought in the war are Patriots and others who advanced the cause of the American Revolution in other ways are Patriots.

How do the Sons of the American Revolution honor a Patriot? The program will be of patriotic nature. An invocation will be given. The contributions of the patriot and other known facts about the patriot will be made known. A wreath will be placed on his grave. There are those cases in which the exact site of the patriot' burial is unknown or we cannot receive permission to use the site. In these cases we select a site suitable nearest to the suspected general area of actual burial. If he has no stone we will sometimes supply a stone or a marker subject to conditions placed on us by the site. We work within the requests of the cemetery or other selected property regarding how the site is marked.

Many of these patriots are known and many are not. Many of their resting places are known and many are not. Whoever they are and wherever they lie, they are due tribute. For those who we cannot honor perhaps this writing will in some degree serve that purpose.

It was the Patriots and others of their generation which came west and carved out a new life and are responsible for building your county, state, and nation.

ADONIJAH GRISWOLD made a settlement in this township, on Apple Creek Prairie, in 1828, being induced to remove here from his state, Vermont, by some of his children, who had already located in this region. Mr. Griswold was reared in Vermont, where he was also married to Mary Barton. He served in the war of 1812, and during that struggle was taken prisoner by the British troops and placed in prison. After an incarceration of some time, he succeeded in effecting an escape, by scaling the prison walls, only to be recaptured and returned to his place of confinement, receiving 20 lashes as a penalty for seeking freedom. At the expiration of three years, however, he was released. He remained a resident of this township until his death, Sept. 1, 1841. The widowed wife and mother survived him until 1844.
